Arrivée au Canada : 18 mai 2026 | Statut légal : Résident permanent | Lieu de résidence prévue : Ottawa, ON

Développeur Angular

Bilingue: Ang. – Fr.

PROFILE

Angular / Full-Stack Developer with 6+ years of experience specializing in Angular, TypeScript, and Node.js. Strong expertise in building high-performance, scalable, and maintainable web applications. Proven track record in modernizing legacy systems, integrating RESTful APIs, and maintaining complex applications in Agile environments. Solid understanding of software development best practices, including testing, code reviews, CI/CD, and DevOps principles. Collaborative team player with the ability to challenge technical decisions and contribute to continuous improvement of products and processes.

TECHNICAL SKILLS

- **Frontend:** Angular (v15+), TypeScript, RxJS, NgRx, HTML5, CSS3, SASS
- **Backend:** Node.js, REST APIs
- **DevOps & CI/CD:** Git, CI/CD pipelines, basic knowledge of Jenkins, Docker
- **Tools & Methodologies:** Agile / Scrum, code reviews, testing, refactoring
- **Databases:** MySQL, MongoDB
- **Soft Skills:** Teamwork, fast learner, adaptability to new technologies, attention to detail, analytical thinking

PROFESSIONAL EXPERIENCE

Angular Developer / Full-Stack Developer

Jan. 2020 – Mai 2026

ADRWARE, Madagascar

- Improved user satisfaction and reduced technical incidents by 30% by developing and maintaining production Angular applications
- Contributed to the modernization of legacy applications by enhancing architecture, performance, and user experience
- Increased user engagement by 25% by designing dynamic, responsive, and maintainable interfaces using Angular and TypeScript
- Developed and integrated REST APIs, improving data exchange reliability by 40%
- Maintained and enhanced complex systems by identifying and resolving performance, integration, and architectural issues
- Reduced page load time from 8s to 3s (-60%) through frontend performance optimization
- Applied best practices: code reviews, refactoring, testing, and continuous improvement
- Collaborated in Agile (Scrum) environments with cross-functional teams to ensure continuous delivery
- Contributed to CI/CD practices and process improvements

Technical Environment: Angular, TypeScript, JavaScript, Ionic, Node.js, HTML, CSS, Symfony, Docker, MySQL, MongoDB, Git, Visual Studio Code

Software Development Engineer Intern

Jul. 2020 – Aug 2020

PULSE, Madagascar

- Improved internal processes by developing an internal application using PHP (CodeIgniter) and MySQL
- Translated business requirements into technical solutions and functional implementations
- Optimized operational workflows through close collaboration with business teams

Technical Environment: PHP, CodeIgniter, HTML, CSS, MySQL, Git, Jira**ÉDUCATION****Master in Computer Methods Applied to Business Management (MIAGE)**

2019 – 2021

Université Côte d'Azur, France

Specialization: Mobility, Databases, and Systems Integration (MBDS)

Canadian equivalency: Master's Degree (WES Canada)
